1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 23-27 drawn to an invention non-elected without traverse. Accordingly, claims 23-27 have been cancelled.

2. It is noted that the listing of claims submitted with the after-final amendment filed 6/1/04 was incomplete in that it did not indicate the presence of claims 18-22 as being cancelled and claims 23-27 as being withdrawn from consideration.

3. It is also noted that the request for reconsideration filed 4/29/04 has been entered and considered but does not overcome the rejection because claims 11-17 are believed to be properly rejected as set forth in the final rejection. The request for reconsideration, even though filed earlier, reached the examiner at the same time as the after-final amendment; therefore, it is being acknowledged here as part of the notice of allowance rather than in a separate advisory action, as would normally be the case.
